

# The Christian Family

And Joseph Nourished His Father, And His Brethren, And All His Father's Household, With Bread, According To Their Families. —Genesis 47:12

## Family is the very Foundation of Government

The Christian Man is the Governor of his Family, and it is his Responsibility as Governor to Provide all necessary needs (not necessarily all the varied wants). —When Governor Joseph, in Egypt brought up from Canaan, and took responsibility for his estranged family, There in Goshen, he first made sure they would be Well Fed; in this time of world wide Famine.

Even Pharaoh King of Egypt, told Governor Joseph to seek out the best Pastureland for Jacob's Family Trade.

The King even offered Jobs to these Hebrew Herdsmen; the care of the very Cattle of the Pharaoh.

**Gen 47:7 And Joseph brought in Jacob his father, and set him before Pharaoh:**

**and Jacob Blessed Pharaoh. Gen 47:10 And Jacob Blessed Pharaoh, and went out from before Pharaoh.**

What so amazes me in this Chapter in the history of Egypt, is that the Pharaoh (President, if you will) and the Governor are working Together for the very Best life for the FAMILY!

No Small Wonder that Jacob (Israel) Blesses the Pharaoh (or King) of all Egypt.

How many American Presidents have Put Your Family Survival on the top of their Priority List of Importance? When was the last time Your Politicians earned Your Family Blessing, instead of just Earning the funds of Special Interest Groups, for Themselves?

**Gen 47:11-12 And Joseph placed his father and his brethren, and gave them a possession in the land of Egypt, in the Best of the**

**land, in the land of Rameses, as Pharaoh had commanded. And Joseph Nourished his father, and his brethren, and all his father's household, with bread, according to their families.**

**Gen 47:27 And Israel dwelt in the land of Egypt, in the country of Goshen; and they had Possessions Therein, and Grew, and Multiplied Exceedingly.**

But the way our Political Leaders are heading, many families could eventually be living in small tents or mobiles, just like many now are in some of the devastated Southern States....

## Incomes Actually Falling For Parents Working Two Jobs

Families today, are not getting ahead by working at More Jobs for Less Pay. More people in the household's are working away from the home, and away from their Children! The Poverty rate is

on the rise again, since 2000; with about 37,000,000 Million in 2005. Can our Fund Raising Political Leaders Raise A Family of Four (4) on under \$19,971. Yet they continue to Give 'the American Dream' over to the growing rich supporters, hoping

to line their Own Deep Pockets for their next Campaigns. Will They build their Political Names on the shirtless backs of the Poor Family Man? Is Our Government, helping the Rich "Benefactors" Rob the Poor Family Man?
