## IMAGINATION AND CREATIVITY

JUNE 2006

One of the Joys of being A Child is learning to use your Imagination and your Creativity! Lets say you wake up in the Morning and look outside and it's gray and rainy. Your first thought may be to crawl back in bed. But your second thought may be to put your Imagination to use. What would you Imagine? Would you like to see Sunshine? Then get out your

make it as bright and beautiful as you could ever imagine it to be! Now think of what would go with sunshine? Can you Imagine Birds in the sky? What Color can birds be? Could there be Trees? What about Flowers? Can you Imagine a Yard full of

them? What about Animals? What kinds of animals would be playing out in the sunshine?

Imagine a Koala Bear in the tree, is she surprised to see you?

How about an Alligator hiking through the swamp this morning?

The more you can Imagine, the brighter your day can be! GOD our Creator gave us this power to Use and Enjoy!

Paper and Colors and start drawing the Sun.

## OUR CREATOR GOD USED HIS CREATIVITY

Now Imagine, one Morning in Heaven. GOD our Creator looked down on the Earth, darker than Night. He could have just Closed Heaven's Curtain on His window towards Planet Earth.

But he Cared enough to do something about all the Darkness covering our Planet. GOD Imagined a big bright Sun shining down on the Earth. He imagined all the beautiful Colors the sun would reveal on a brightened planet. Then He went to work to use

His Imagination. **HE SAID** exactly what He wanted to See! "**LIGHT**" AND THE SUN WAS CREATED, AND SHONE DOWN UPON PLANET EARTH. AND **GOD LOVED THE LIGHT** THAT HE CREATED, AND **THE LIGHT** BROUGHT THE **COLORS** ALIVE.
